
Beth Guenther, Assoc. AIA

As Quality Control Manager at Koch Hazard Architects, Beth is responsible for code reviews, ADA reviews, and peer reviews as well as office educational forums.

As a Project Manager at Koch Hazard Architects, Beth Guenther works with clients and contractors to effectively transform project vision into reality. Her varied project experience includes fire stations, secondary and post-secondary educational facilities, multi-family housing, residential, food service and military facilities. She deftly manages large and small projects delivered using a range of methodologies, including design-build, fast track, construction management and design-bid-build.
